Magnificent independent villa with 500 meters of plot in one of the calmest urbanizations of Los Alcázares. The 180-meter house has a living room, three bedrooms and two bathrooms, one of them en suite. The rooms have fitted wardrobes. The independent kitchen comes furnished and has access to a patio with a laundry room as well as an exit to the garden that surrounds the entire house.

The house has many extras such as heating with a diesel tank, a 120 square meter warehouse attached to the house with an office that has access to the house where another room could be made. It also has thermal insulation both on the floor and on the walls as well as double-glazed climalit windows. The location could not be better: just 2 km from the Roda golf course, one of the most emblematic golf courses in the area, and Serena Golf. The beach is a few steps away with its beautiful promenade. The doctor's office is a five-minute walk away, as is the weekly market.
