A stunning villa imbued with a clear concept, where indoor and outdoor spaces merge to create an oasis of open, bright, and functional areas. Upon entering the living room, you are greeted by the inviting sight of the terrace, an invitation to bask in the blissful Mediterranean climate, which blesses us with nearly 300 days of sunshine per year.

Designed in open modules and elegantly arranged in an L-shape, the villa embraces the main garden where a stunning infinity pool seamlessly merges with the sea. This open space welcomes you to soak up the sun and Mediterranean climate while being care...(Ask for More Details!)

A stunning villa imbued with a clear concept, where indoor and outdoor spaces merge to create an oasis of open, bright, and functional areas. Upon entering the living room, you are greeted by the inviting sight of the terrace, an invitation to bask in the blissful Mediterranean climate, which blesses us with nearly 300 days of sunshine per year.

Designed in open modules and elegantly arranged in an L-shape, the villa embraces the main garden where a stunning infinity pool seamlessly merges with the sea. This open space welcomes you to soak up the sun and Mediterranean climate while being carefully oriented to ensure maximum privacy.

Divided into two levels, the upper floor reveals the sleeping quarters, where two bedrooms share a common bathroom, while the master suite becomes a private sanctuary with its own bathroom and dressing area. From these rooms, you are treated to enchanting views of the sea and mountains, creating a sense of serenity and tranquility that invites pure relaxation.

The ground floor accommodates the daytime module, seamlessly connected to the outside to create a sense of fluidity and unity with the surroundings. This daytime module includes a grand entrance hall, a guest toilet, and a seamless pairing of a generous living-dining room and a perfectly integrated kitchen. Both modules converge in the outdoor space, where the terrace and pool serve as the central point of connection.

The contemporary style of Villa Nara effortlessly blends with Mediterranean tradition, resulting in a harmonious and balanced space that invites sensory joy and relaxation. The lush main garden, with its Mediterranean flora and fragrant plants, connects you with nature in a way that soothes and rejuvenates.

In essence, Villa Nara is a gem of a villa, infused with uniqueness and designed to embrace life in all its splendor while creating an environment where architecture and nature meld in perfect harmony. This is the place where dreams of luxury, comfort, and beauty come to life, and where unforgettable memories are born in an environment that is truly enchanting.

The concept of Magnolias Design revolves around creating personalized villas in the Residential Resort Cumbre del Sol, with a focus on a clean and elegant design that maximizes the southeast orientation and exclusive views of the sea and Ibiza.

The plots designated for sale at Magnolias Design are used for the development of contemporary villas carefully designed to maximize natural light and a sense of spaciousness. The villas are oriented in such a way that the sun rays reflected by the sea reach most of the interior, creating a bright and inviting atmosphere.

The layout of the villas is designed to promote a seamless transition between indoor and outdoor spaces. The extensive day areas, including the kitchen, dining-living room, and veranda, are interconnected through sliding glass doors that shift to the side, creating a harmonious connection between the interior and exterior.

Each villa model features three bedrooms and two bathrooms on the ground floor, with the option to create a fourth bedroom if desired from an open space with a veranda. All villas come with a garden and a covered parking space, making them an ideal option for families looking for comfortable and modern living.
